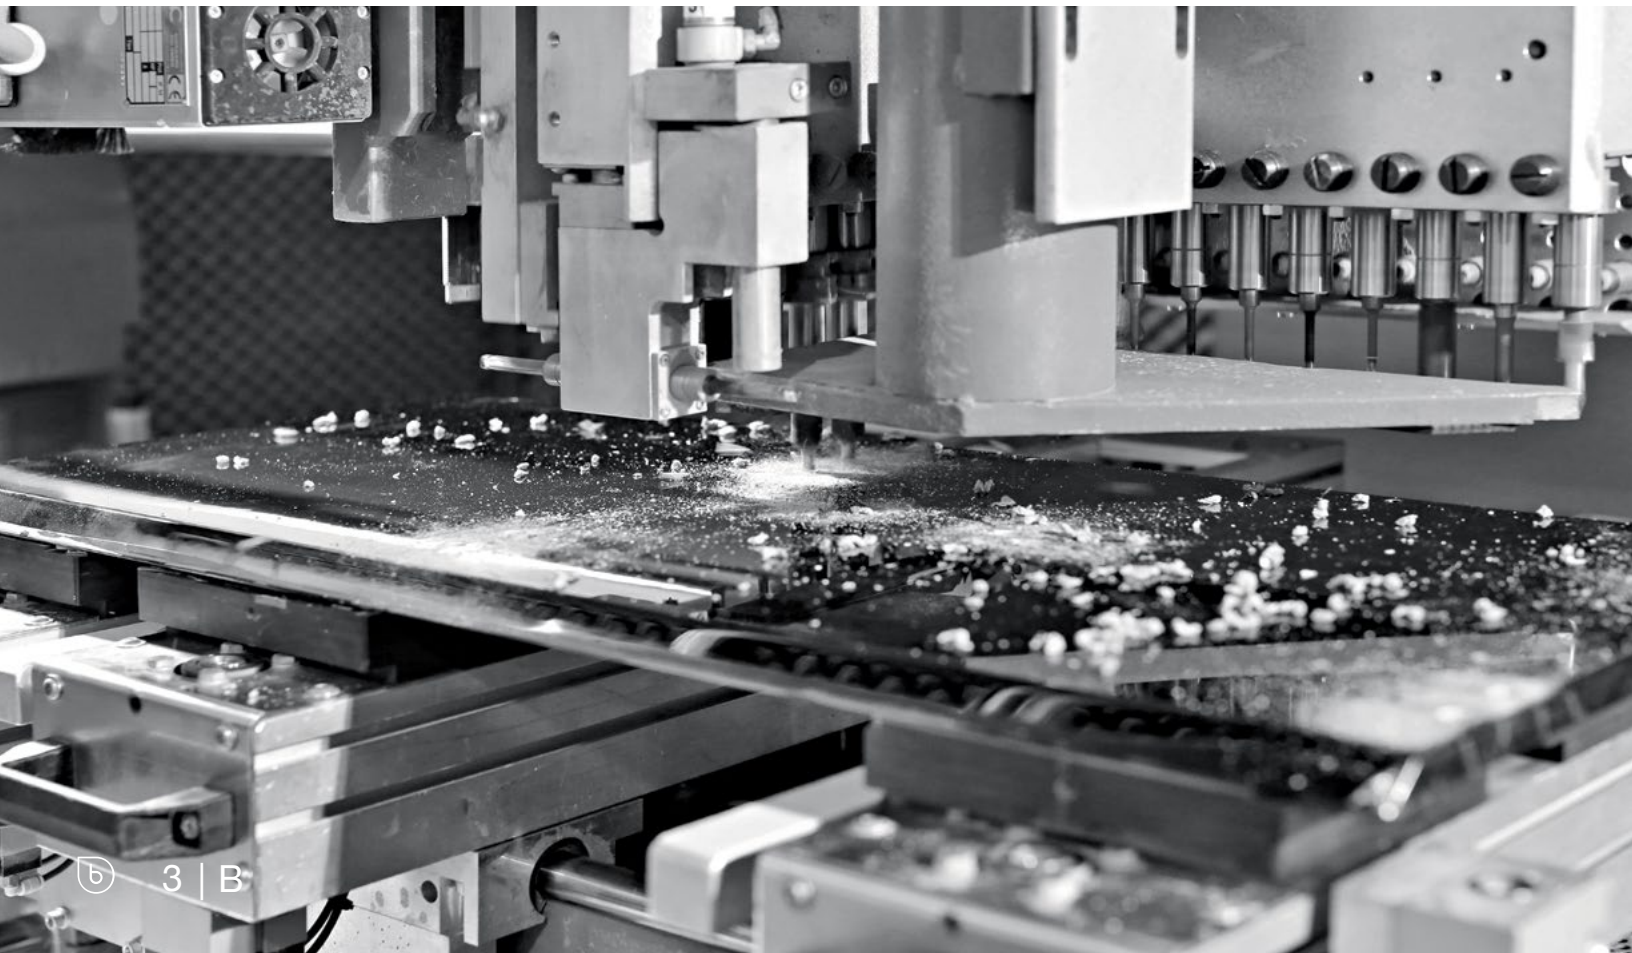
Blu Bathworks®

Blu is a complete modern bathware solution, certified for use in the North American market.

The full range of collections were created with the same design DNA and work in harmony to provide an entire bathroom solution or as standalone statement pieces.

where water meets modern™



Beautiful Italian-crafted furniture collections

by Blu Bathworks®

modern architectural sustainable design

With an inherent passion for water conservation, Blu Bathworks® is committed to developing sustainable products for an ecological future.

This passion motivated us to create our signature eco-friendly blu·stone™ material, which – in addition to its low-energy production process and recyclable nature – provides superior water temperature retention, requiring less water consumption for an optimum bathing experience.

> “Our newest product selection reflects our continued vision and pursuit of design and product innovation.”

Blu Bathworks’ Italian-crafted 45º, 45° FENIX™ and 51 furniture collections are another example of our sustainable design & production philosophy - created with Idroleb ecological panels with the lowest formaldehyde emissions in the world & designed to coordinate with eco-friendly blu·stone™ vanity tops.

Sustainability is an expression of our corporate culture, expressed in our attitude, product offering, as well as our production processes. We continue to evolve our working relationships to constantly review and optimize our production practices from an ecology viewpoint.

codes + compliance

Blu is proud to feature a selection of sustainable and certified products, that meet or exceed the highest standards, including:

Certificate that guarantees the use of panels with formaldehyde emissions lower than the minimum required by the European standard UNI EN13896

Certificate attesting to the legality of forest and industrial transformation operations, and to the traceability of wood from rainforests.

Certificate of treatment of panels with water repellent resins

features + benefits

Blu Bathworks 45 degree furniture collection is Italian-crafted using quality, sustainable materials with the lowest formaldehyde emissions in the world. The collection is designed as a modular range of wall-mount vanities from 27½" to 71" wide, with coordinating blu·stone™ vanity tops and mirrors with LED lighting.

Unique 45º Design Feature

The entire 45º furniture collection is characterized by a unique 45 degree design feature, which is achieved in 45° vanity frames by die cutting the wood material and delicately folding the pieces to create 45° joins on the two lower angles. This design feature is evident on all four angles of the mirror frames and vanity drawer tops – and serves to further elevate the quality craftsmanship inherent in this collection.

Vanity Design Options

45º collection offers two vanity design options: FULL features a slim inner drawer within a drawer design, which provides quick & easy access to smaller items, while facilitating a clean, minimalist look externally. UP vanity design provides a single drawer with an open bottom shelf to store and display towels and other toiletries.

Hettich Soft-Close System

Promoting a minimalist, handle-free aesthetic, all 45º vanities feature a recessed finger pull channel to easily open the drawer, while Hettich technology is incorporated to provide a smooth, soft-close operation every time.

Plumbing Clearance Drawer Design

The slim drawer within a drawer design of 45° vanities provide quick & easy access to smaller items, while facilitating a clean, minimalist look externally. Vanity drawers are designed to maximize storage space while separating stored items from plumbing drain pipes.

Coordinating blu·stone™ Vanity Tops

Vanity tops are available in Blu Bathworks signature eco-friendly blu·stone™ material – crafted primarily from quartzite – in a range of widths from 27¾" to 71" to coordinate with each 45° vanity. All blu·stone™ vanity tops are available in ½" thickness with choice of matte or gloss finish; series 1200 & 1400 are also available in 1-4" thickness.

Vanity Drawer Organization is Standard

To facilitate bathroom organization, each 45º vanity is equipped with a range of storage compartments, bins + cosmetic holders. Drawer organization kits are also available separately for additional custom storage requirements.

Mirror with LED Lighting

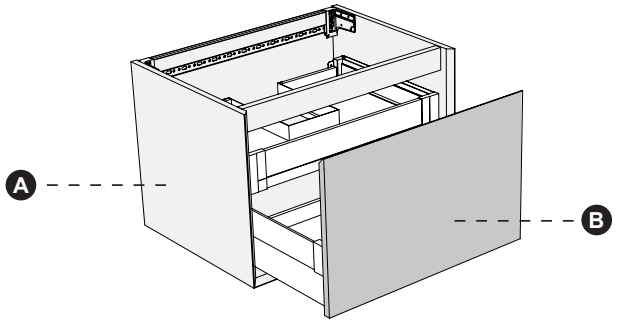
An LED perimeter light, subtly positioned behind the frosted edging, is standard with each 45º collection mirror - omitting a soft glow (colour temperature: 4200K). Lighting is operated by a discreet ¼" touch sensor switch, located on the mirror face. Mirrors are available in a natural oak wood or matte white lacquer finish to coordinate with 45° vanities.

Quick & Easy Installation

Great care has been taken in the design of 45º vanities and mirrors to ensure convenient installation, including an integral channel on the backside of each mirror to allow the installer to adjust brackets to hit studs accordingly. Similarly, all 45º vanities are equipped with one continuous bracket along the backside to allow easy retro-fitting / hitting studs where backing or additional support is not available.

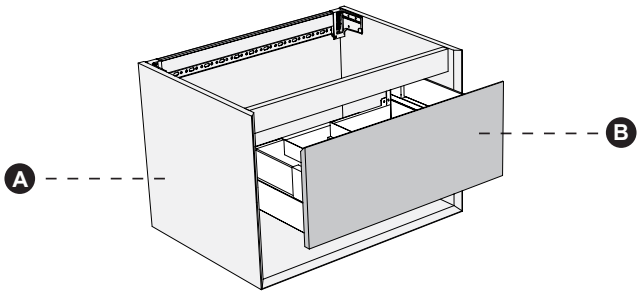
finish + color guide

45° FULL VANITY



DESIGN OPTION: V1

45° UP VANITY



DESIGN OPTION: V2

Materials:

A vanity frame

Wood - Natural Oak
Constructed of real massif wood and wood veneer finish

Lacquer - Matte
Engineered wood (MDF) panel IDROLEB

B vanity drawer front

Wood - Natural Oak
Constructed of real massif wood and wood veneer finish

Wood - Vintage Oak
Wood veneer on a multi layer birch wood panel

Wood - Distressed Oak
Solid wood three layer oak

Lacquer - Matte + Gloss
Engineered wood (MDF) panel IDROLEB

Note: Wood is a natural product, therefore any variations in color, vein or finish on wood is considered part of the wood's value and craftsmanship. Wood is a material that has its uniqueness and originality. For this characteristic, differences in grain and color tones can be found, which fall within the tolerances provided by the standards and which make each front unique.

features + benefits

Blu Bathworks 45º + FENIX™ furniture collection, stands out by its unique 45 degree design feature, integrated basin with the latest generation of technological finish material - FENIX™. The collection is designed as a modular range of wall-mount vanities from 27½" to 71" wide, with coordinating 45° collection mirrors with LED lighting.

Unique 45º Design Feature

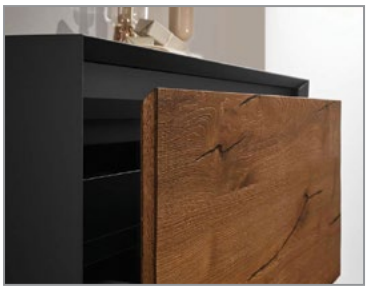
The entire 45º FENIX™ furniture collection is characterized by a unique 45 degree design feature, which is found in the joints of the structure and in the sloping cut of the top of the fronts which creates a practical and elegant opening system. This design feature is also evident on all four angles of the mirror frames – and serves to further elevate the quality craftsmanship inherent in this collection.

Vanity Design Options

45º FENIX™ collection offers two vanity design options: FULL features a slim inner drawer within a drawer design, which provides quick & easy access to smaller items, while facilitating a clean, minimalist look externally. UP vanity design provides a single drawer with an open bottom shelf to store and display towels and other toiletries.

Integrated Basin

45° FENIX™ vanities have integrated basins in FENIX™ finish with central matching drain. This vanity will demand attention from anyone who sees it, becoming the centerpiece of your modern bathroom.



Hettich Soft-Close System

Promoting a minimalist, handle-free aesthetic, all 45º FENIX™ vanities feature a recessed finger pull channel to easily open the drawer, while Hettich technology is incorporated to provide a smooth, soft-close operation every time.

45° collection Mirror with LED Lighting

An LED perimeter light, subtly positioned behind the frosted edging, is standard with each 45º collection mirror - omitting a soft glow (color temperature: 4200K). Lighting is operated by a discreet ¼" touch sensor switch, located on the mirror face. Mirrors are available in a matte white or black lacquer finish to coordinate with 45° FENIX™ vanities.

Plumbing Clearance Drawer Design

The slim drawer within a drawer design of 45° FENIX™ vanities provide quick & easy access to smaller items, while facilitating a clean, minimalist look externally. Vanity drawers are designed to maximize storage space while separating stored items from plumbing drain pipes.

Vanity Drawer Organization is Standard

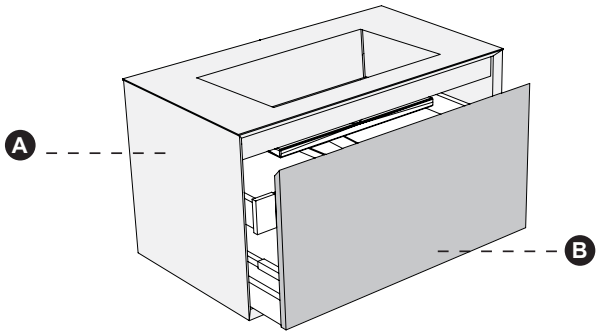
To facilitate bathroom organization, each 45º FENIX™ vanity is equipped with a range of storage compartments, bins + cosmetic holders. Drawer organization kits are also available separately for additional custom storage requirements.

Quick & Easy Installation

Great care has been taken in the design of 45º FENIX™ vanities and 45° collection mirrors to ensure convenient installation, including an integral channel on the backside of each mirror to allow the installer to adjust brackets to hit studs accordingly. Similarly, all 45º FENIX™ vanities are equipped with one continuous bracket along the backside to allow easy retro-fitting / hitting studs where backing or additional support is not available.

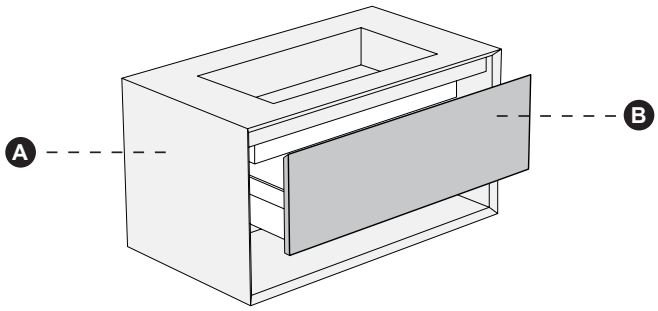
finish + color guide

45° FENIX™ FULL VANITY



DESIGN OPTION: V1

45° FENIX™ UP VANITY



DESIGN OPTION: V2

Materials:

A vanity frame

FENIX™
An innovative Nanotech material: a smart surface, extremely matte, fingerprint proof, soft to the touch but resistant to rubbing, abrasions, impacts, and thermally self-heals micro-scratches.

B vanity drawer front

Wood - Natural Oak
Constructed of real massif wood and wood veneer finish

Wood - Vintage Oak
Wood veneer on a multi layer birch wood panel

Wood - Distressed Oak
Solid wood three layer oak

Lacquer
Engineered wood (MDF) panel IDROLEB

Note: Wood is a natural product, therefore any variations in color, vein or finish on wood is considered part of the wood's value and craftsmanship. Wood is a material that has its uniqueness and originality. For this characteristic, differences in grain and color tones can be found, which fall within the tolerances provided by the standards and which make each front unique.

BARICCO OCEANO MARE
RIZZOLI

features + benefits

Blu Bathworks 51 furniture collection is a modular line of Italian-crafted vanities available in the innovative Hard Surface Technology (HST) range of finishes. This collection features six series, ranging from in width from 23½" to 71" with coordinating blu·stone™ vanity top basins and choice of mirrors with LED lighting.

Innovative Hard Surface Technology (HST) Finishes

The line of 51 vanities are designed with a choice of Hard Surface Technology (HST) finishes, which offer extraordinary technical performance in terms of exceptional durability, extremely high resistance to scratches and chemicals, all in addition to a beautiful aesthetic and tactile wood grain effect.

Plumbing Clearance Drawer Design

The slim drawer within a drawer design of 51 vanities provides quick & easy access to smaller items, while facilitating a clean, minimalist look externally. Vanity drawers are designed to maximize storage space while separating stored items from plumbing drain pipes.

Push/Pull + Soft-Close Operation

Invoking a minimalist, handle-free aesthetic, 51 vanities feature an easy push/pull opening system – ensuring convenient opening with a gentle push anywhere along the drawer front, providing a smooth, soft-close operation every time.

Optional Vanity Drawer Organization Kits

To facilitate bathroom organization and storage, a selection of optional drawer organization kits are available for all 51 vanities, including small storage compartments (F01AC-01), cosmetic holders (F01AC-02), storage bin sets (F01AC-03) and tissue box (F01AC-04) – all designed to provide storage and easy access to smaller items at your fingertips!

Coordinating blu·stone™ Vanity Tops

Vanity tops are available in Blu Bathworks signature eco-friendly blu·stone™ material – crafted primarily from quartzite – in a range of widths from 23¾" to 71" to coordinate with each 51 vanity. All blu·stone™ vanity tops are available in ½" thickness with choice of matte or gloss finish; series 1200 & 1400 are also available in 1-4" thickness.

Mirror Design Options

51 collection offers multiple mirror design options: M1 features vertical LED lighting and a box perimeter frame in White Matte lacquer finish – which doubles as a stylish shelf for toiletries! M2 is a thin profile frameless mirror design with LED perimeter lighting.

LED Lighting

Both M1 and M2 mirror designs incorporate soft LED lighting with color temperature 4200K. M1 box mirror features two vertical LED strip lights operated by a discreet infrared switch located under the shelf. While the M2 frameless mirror features an LED perimeter lights, subtly positioned behind the mirror, operated by a discreet touch sensor switch located on the mirror face.

Quick & Easy Installation

Great care has been taken in the design of 51 vanities and mirrors to ensure convenient installation, including an integral channel on the backside of each mirror to allow the installer to adjust brackets to hit studs accordingly.

Similarly, all 51 vanities are equipped with one continuous bracket along the backside to allow easy retro-fitting / hitting studs where backing or additional support is not available.

blu·stone™ bathtub amanpuri·1 BT6100-01M

warranty

limited blu·stone™ residential warranty

Blu Bathworks® ("Blu") blu·stone™ products are warranted to the original purchaser to be free from defects in all material and workmanship during normal residential use for a period of five (5) years from the date of purchase. Blu will, at its election, repair, provide a replacement part or product, or make appropriate adjustment, subject to the terms and conditions set forth in this warranty. Blu Bathworks does not recommend exceeding US/Canada maximum hot water temperature regulations of 150°F / 65°C, respectively. Exceeding stated temperatures could result in damage to blu·stone™ basins and bathtubs. Bathtub/basin drains and parts are warrantied for a period of 1 year.

limited furniture residential warranty

Blu Bathworks® ("Blu") furniture products are warranted to the original purchaser to be free from defects in all material and workmanship during normal residential use for a period of one (5) years from the date of purchase. Blu will, at its election, repair, provide a replacement part or product, or make appropriate adjustment, subject to the terms and conditions set forth in this warranty. The painted finish is warrantied for a period of 2 years; furniture accessories and parts are warrantied for a period of 1 year.

limited tapware residential warranty

Blu Bathworks® ("Blu") tapware products are warranted to the original purchaser to be free from defects in all mechanical parts and polished chrome finishes during normal residential use for as long as the original purchaser owns his or her home. Blu will, at its election, repair, provide a replacement part or product, or make appropriate adjustment, subject to the terms and conditions set forth in this warranty. The painted finish is warrantied for a period of 2 years. Normal wear and tear on parts is warrantied for a period of 1 year.

limited commercial warranty

Blu Bathworks® ("Blu") products are warranted to the original purchaser to be free from defects in all material and workmanship during normal usage for a period of one (1) year from the date of purchase. Blu will, at its election, repair, provide a replacement part or product, or make appropriate adjustment, subject to the terms and conditions set forth in this warranty.

terms + conditions

This warranty applies only to Blu Bathworks® ("Blu") products distributed in North America.

This warranty is non-transferable and is for the exclusive benefit of the original purchaser of a Blu product. This warranty may be exercised by the original purchaser of a unit in a new residential development. Blu recommends using a professional plumber for all installation and repair.

This warranty does not apply to products that have been installed in any manner other than as set out in Blu's installation guides, or to products that have been altered in any way.

For further clarity, the above stated warranty does not cover or apply to damage attributable to:

a. neglect, misuse, abuse, accident or negligence;

b. normal wear and tear, such as gloss reduction, scratching or fading over time due to use, cleaning practices or water or atmospheric condition, including but not limited to, the use of bleach, alkali, acid cleaners, dry (powder) cleaners or any other abrasive cleaners or the use of metal or nylon scrubbers.

c. dirt or lime scale, or improper care, cleaning, or maintenance of the Product, or the use of inappropriate cleaners (such as those containing abrasives, ammonia, acids, waxes, bleaches, solvents, alcohol, or any product not recommended for chrome);

d. damage caused by transportation, or improper storage;

e. a natural calamity such as fire, earthquake, flood, thunder, electrical storm, etc.;

f. sediments or foreign matter contained in a water system;

g. damage or loss resulting from improper installation or from installation of the Product in a harsh and/or hazardous environment, or improper removal, repair or modification of the Product;

h. electrical surges or lightning strikes or other acts which are not the fault of Blu Bathworks or which the Product is not specified to tolerate;

i. the use of any Product in a manner inconsistent with the Product instructions / owners manual; and

j. any failure, or damage to, this Product caused by either chloramines in the treatment of public water supply or cleaners containing chlorine (calcium hypochlorite).

NOTE: The use of high concentrate chlorine or chlorine related products can seriously damage the fittings. This damage can cause leakage and serious property damage.

k. the aerator, cartridges/check valves included in some tapware, due to being an expendable item

l. The supply lines must be flushed out to prevent clogging of the filter screens. Failure to flush the lines will permanently damage the cartridge and void the warranty

This is the only warranty of Blu, which makes no other warranty of any kind. Blu disclaims any liability for special, incidental or consequential damages.

In no event shall the liability of Blu under this warranty exceed the purchase price of the product.

PROCEDURE FOR WARRANTY SERVICE

Refer to blubathworks.com for policy and procedures relating to requests for service under the terms of this warranty.
Original proof of purchase is required. Blu is not responsible for removal or installation costs, or the costs of shipping and handling associated with any service. Repaired or replaced products or parts are warranted only for the period remaining under the initial warranty.

For warranty eligibility, a completed & signed Return Goods Authorization (RGA) form must be emailed to Blu Bathworks® at warranty@blubathworks.com, which includes all relevant information regarding your claim, including:

- Product /SKU number
- Proof-of-purchase (copy of your original sales receipt, purchase order, or invoice), the date the product was purchased and installation date
- Complete description of the problem with supporting documentation as applicable (such as photographs)

Note: Failure to provide any required information will void the warranty.

Any damages resulting from transportation or missing parts must be reported to Blu within 5 days of receipt by the consignee.
Please allow 7 to 14 business days for warranty processing.
Special Order items are not subject to cancellation or return.

inventory

Blu Bathworks' categorizes standard in-stock inventory items versus special order items and provides an estimated guideline for fulfillment of non-stocked furniture + blu·stone™ items, as outlined below.

Lead times indicated are approximative from order confirmation date and do not include shipping within North America.
***Special Order items** require a 50% non-refundable deposit at time of order acceptance.
